The vélo-libre project of the Autonomous Social Center (ASC) of Point St. Charles has two parts:

To offer a system of free bikes for the neighbourhood

- ★ Bikes painted with the colours of the ASC will be parked on racks installed in strategic places in the neighbourhood.
- ★ People will be able to borrow the bikes to get around.
- ★ Road signs will be posted at all the exits of the neighbourhood inviting bicycle users to bring the bikes back to the Point.

To offer bike repair workshops

- ★ People from the area will be able to bring their bikes in and learn how to fix them
- ★ From now until May 29th, we will be organizing workshops once in a while in St. Gabriel's park... after the 29th, the workshops will happen in our permanent space at the Autonomous Social Center (address to be announced).
